

# Scottish Community and Householder Renewables Initiative (SCHRI)

## Certified Installer List

(updated 25/03/2008)

In order to apply for a SCHRI grant applicants must obtain quotes from certified installers. The certification of installers for all technologies except air source heat pumps and solar air is managed by BRE Global through the **Microgeneration Certification Scheme (MCS)**. To aid SCHRI applicants in finding a suitable installer we have compiled the following list which includes all certified installers who are based in Scotland and those who are based in other parts of the UK that operate in Scotland.

**Please note that the installer list changes frequently** - to keep up to date with recent developments please contact BRE Global on 0845 6181514 or visit [www.ukmicrogeneration.org/](http://www.ukmicrogeneration.org/).

For air source heat pump and solar air systems the Energy Saving Trust manages the accreditation of installers and products. Installer details can be found below and a list of air source and solar air products may be found at the following SCHRI web page <http://www.energysavingtrust.org.uk/schri/household/how>.

### Installers Located in Scotland
